OBJECTIVE

Dedicated and skilled Frontend Developer with hands-on experience in building responsive and visually appealing web applications. Proficient in HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, and modern frameworks like ReactJS, Redux, and Next.js. Committed to writing clean, maintainable code and collaborating effectively in team environments to deliver high-quality software solutions. .

SKILLS

- **Programming Languages:** HTML • CSS • Tailwind CSS • JavaScript • TypeScript • Bootstrap • React.js • Next.js
 - Redux Toolkit
- **Tools and Technologies:** Git • Vs Studio • Figma • Wordpress

EXPERIENCE

- **Zealyug**  March 2023 - November 2023
Frontend Development Remote
certificate
 - Collaborated with the graphics team to translate UI/UX designs into functional web interfaces.
 - Designed and prototyped user experiences using **Figma**.
 - Applied design principles in selecting appropriate colors, fonts, and layouts.
 - Developed and managed user interfaces using **HTML, CSS, Bootstrap, Tailwind CSS, TypeScript, JavaScript, and React.js**.
 - Created reusable components to enhance code efficiency and improve the performance of web applications.

EDUCATION

- **Maulana Abul Kalam Azad University of Technology** August 2021 - June 2024
Bachelor of Computer Applications Kolkata
 - CGPA: 8.36
- **NABAPALLY BOYS HIGH SCHOOL (HS)** July 2014
Higher Secondary Barasat
- **Ramakrishna Vivekananda Mission Schools** July 2012
Secondary Education Barrackpore

PROJECTS

- **NextJS Music App : Checkout code on [Music APP](#)** 
Tools: [Next.js, React.js, Tailwind CSS, Framer Motion]
 - Developed a fully responsive music streaming application with server-side rendering.
 - Implemented server-side rendering with **Next.js** to optimize performance and improve SEO.
 - Utilized **Tailwind CSS** for styling, ensuring a modern and cohesive user interface across all devices.
 - Integrated audio playback features with custom controls, and managed state effectively with React hooks.
- **React Weather App : Checkout code on [React Weather App](#)** 
Tools: [React.js, CSS, Weather API]
 - Developed an advanced weather application using **React.js**, enhancing the original Weather App with additional features.
 - Leveraged React's component-based architecture to create reusable UI components, such as weather cards and search bars.
 - Implemented responsive design principles to ensure the app works seamlessly on various screen sizes.
- **Weather App : Checkout code on [Weather App](#)** 
Tools: [JavaScript, HTML, CSS, Weather API]
 - Created a weather forecasting application that fetches real-time weather data from a public API.
 - Implemented dynamic UI updates based on user input, such as city selection, using **JavaScript** and interface with **HTML** and **CSS**.
- **Redux Todo App : Checkout code on [ReduxTodoApp](#)** 
Tools: [React.js, Redux, JavaScript, CSS]
 - Developed a task management application using **React.js** and **Redux** for state management.
 - Implemented features such as adding, editing, and deleting tasks, with state persistence using local storage.
 - Focused on creating a minimalistic yet functional UI, allowing users to manage their tasks efficiently.
